#### EDUCATIONAL. From Los Ntetos.

LITTLE LAKE, DIST., Los Niteos, Nov. 21,

EDITOR HERALD-Dear Sir: accepting your kind offer to the teachers of Los Angeles county, I assumed the task of contributing something towards filling the space allotted us in your valuable paper. Judging from the position taken by some of the

teachers at the "Institute," I am inclined to believe our column will be read by few. A people whose children require to be driven to school by a "complisory" law can feel but little interest in the cause of education. Our school numbers but thirty one pupils. Their attendance has been most excel-tent. The district is a small one as you will infer from the number of pupils enrolled. The patrons are poor, but honest and industrious. And to

our poverty we have another curse-a superabundance of old bachelors; a lady told me so, and she is not an old maid, so there must be some truth in lors or the ladies are to blame I know not, but it is an evil that should be remedied if possible. I could give some good advice in this matter, but that is one thing I never give unasked, and very sparingly anyhow; I will make a sugrestion at any rate. Let us said, no one was a good citizen until he had planted a tree, tilled a field, and become a father. This is good au-thority, for he made laws, I think, for

a nation.

The patrons have taken a very commendable interest in the school; enough to put to shame the advocates of "compulsory" attendance. I feel very much like the hen spoken of at the "Institute," inclined "to spread" myself; but haven't space as she had.

Yours truly, W. H. BEALL.

The school; county fricting shall be given to an other.

pression made during the two previous years as to the entire practicability of imparting collegiate and professional education to both sexes in the same schools. If any have cherished a fear that the admission of women would tend to reduce the standard of work in the university, their attention may be directed to the fact that during the last three years we have been steadily increasing the requirements for admission and broadening the range of studies. Now, certainly the women extractions such difficulty in acin the regular curriculum as to call for ond a policeman who can never be their account. Their record is ascreditable in all branches as that of their classmates of the other sex. Nor do I see any evidence that their success in "live" paper, and the sixth the News their intellectual pursuits is at the ex- Letter man, whom it is my desire to out belth. On the contrary, I punish. doubt if an equal number of young women in any other pursuit in life executive in better health during the ter.

ADVERTISING IN DULL TIMES.

The New York Evening Post gives the following from the Milwaukee LAND FOR SALE.

After the crash of '57, when everybody was almost scared to death, and the croakers predicted that the country had gone to smash, a dry goods house was opened in this city; which proceeded on the principle that in order to reach the hoarded money in the pockets of the people, the proprietors must sell at very reasonable prices and advertise very largely. They worked vigorously upon this principle. Their brother merchants, who did not advertise, predicted that the new comers would be ruined, as they paid too much for advertising. Nevertheless much for advertising. Nevertheless they persisted. In a single year they paid \$500 in gold to the daily Wisconsin for advertising; at the end of seven years they retired with a fortune of \$100,000, while other merchants on

the same street, some of them opposite their store had failed. "We remember," says the Post, "a similar instance among our own advertisers in the panic of 1857. A merchant continued his advertisement in our columns through the whole period of stagnation, and notwithstanding the many predictions that it 'wouldn't pay,' his testimony afterward was that his sales were steady and his profits satisfactory, while manya merchant around him who 'couldn't afford to advertise,' saw his clerks stand idle

behind the counters. A financial panie does not mean that no one has any money. There is plenty of money in the country, and those who hoard it are just the ones to what she says. The cause of this fact was not stated. Whether the bachein prices holds out. But to buy they must know where to buy, and the merchant who tells them will receive their cash."

SENATOR CASSERLY'S WILL.-We have been favored with a copy of this celebrated stateman's will, which we here present to our readers: Being fully developed in body, sound in have a "compulsory" marriage law, enforcing every man to have at least one wife, with the privilege of as many children as he wants. The Chamber of Commerce. The Chamber is making a great effort to interest our citizens and to induce them by subscriptions and in other ways, to assist their undertaking. The Chamber is the special guardian of the interests of the district, a body whose aim is to diffuse through the east a knowledge of the advantages of of Southern California, and to protect | they are liable to be deceived. There is no and extend trade as far as possible. As a body politic and corporate, the protests of the Chamber are of far greater weight than would be those of the same number of private citizens. It will shortly have offices and employees whose especial duty it will be to answer enquirers' letters, and increase the knowledge of the outside world regarding the southern district by the broadcast distribution of pamphlets, newspapers and circulars. All this will cost money, and only persons of the narrowest views will refuse to assist the officers of the Chamber of Commerce in their endeavors to increase its funds and thereby enlarge its usefulness.

#### To the Farmers.

The Agricultural Association have very liberally offered to the public the remaining shares undisposed of in the Society. The offer is one which every farmer should embrace at once, or else forever hold his peace. Besides the excellence of the investment, and the chance of there never being another call on the stock, there is another consideration. The Association must be conducted according to the views of the stockholders. If the farmers are not | represented amongst that body for the future, (especially when such liberal terms are offered them), they cannot grumble if next year their interests are badly cared for. From Santa Barbara to San Diego there is hardly a farmer who cannot subscribe at least for one share. Let us hear at the next meeting tha tthe agriculturalists have responded to this general demand of the district, and bought the remaining shares freely.

THE HERALD is not responsible for what the Santa Barbara Press may say about the Fair. Throughout the late argument this journal never said a word about the "non presence of merit, not only the present patronage, but a ladies and clergymen." On the con- large increase in the future. quently to the pres ence of ladies, and might have to that of clergymen, as several were present of all denominations. The Express makes a mistake in trying to father on the HERALD the opinions of other journals. The Santa Barbara Press says that "it (the fair) has been described to us by gentlemen who attended." Does the Express want to revive the question? If so it can discuss it alone, only it would be well to credit the HERALD with its actual opposition, without ringing in the private opinions of others.

### Water.

While every one is talking irrigation, comparatively few are doing any thing to obtain a supply of water. It has long been a trite axiom in California that it is the winter waste which makes the summer drought. The rainy season is just commencing, and this is the exact time to make preparations to secure water. There is hardly a ranch holder in the State, who has not the means of constructing a dam or reservoir on some portion of his high ground, where nature has already almost formed a basin. By constructing a few ditches now, wherever reservoirs are needed, thousands of acres may be doubled in value. Save the water now.

### Look at This!

The only place in the city to get choice Engravings, Chromos, Oil Paintings, etc., is at M. V. Ponet's, 66 Main street, where you can buy them cheap for cash, or pay in weekly installments of from 25 cents to 41, according to the amount purchased.

### Look Here.

"Eat, drink and be merry" at Johnny Moore's San Francisco Restaurant, on Commercial street. Johnny is an acknowledged prince among restauranteurs. The best meats and vegetables are used and cooked in the most palatable manner. Take your meals at Johany's and you will feel truly refreshed. All meals 25 cents.

Of Special Interest to Parmers. At the Esperanza Store, No. 108 Main street, will be found the largest and choicest stock of Merchandise, Groceries, Liquors, Cigars, etc., in Southern California. It is well known that at this store you can buy all goods in their line at from five to ten per cent. cheaper than at any other store in Los Angeles; also that the highest price is paid for all kinds of country produce. All goods delivered to any part of the city free of

### The Cuyas House.

The California oysters kept in the elegant establishment of Mr. Cuyas, near the Pico House, have special qualities, owing to the system followed by the above named gentieman in fattening and preserving them as fresh as when taken out of the sea. Lovers of oysters can see for themselves and be convinced. Chocolate, coffee, tea and other refreshments, all first-class, are also served there. There can be found for sale Sherry Wine, Muscatel, imported from Spain, by Mr. Cuyes, and best brands of Havana Cigars. He also keeps a good stock of perfu-mery, toys and candles of all kinds. now-2w

Wonderful, Isu't It? The amount of goods one can get for \$1 00 at the Dollar Store is really astonishing; and em it a pleasure to their beautiful stock of Holiday Goods to all who may choose to call. Parties buying presents for Sabbath Schools or Christmas trees will find it to their advantage to call on Dunsmoor Bros. before making a selection.

#### Special Notices.

Having just returned with a very arre stock of California and Eastern lewelry which we purchased from first hand-the manufacturers—we propose to sell at very low profits. We handle the best of everything in our line. We sell Vanderslice & Co's and Gorham & Co's solid silver ware, and Rogers & Bros', silver plated ware, for whom we are authorized agents for Southern California and get our goods direct from them. The public should be sure to see that all silver ware is, stamped Rogers & Bro., as there is a quantity of goods in the market bearing similar trade marks, using the name Rogers in various ways, and so appearing so nearly genuine that unless by paying particular attention ware manufactured by Rogers & Bro. except that which bears their trade mark to the letter. But there are several companies manufacturing Rogers' ware, and by close inspection you will see that the trade mark reads differently, and is not made by Rogers & Bro., which is the acknowledged standard plate ware, and as we have handled the same for ten years we can recommend it. We are also sole agents for Black's Patent Interchangeable Spheroidal Pebble Spectacles, which are guarenteed to improve the eyesight and never ipjure, as they are all acromatic lenses. We thoroughly understand, practically and scientifically, fitting all eyes, no matter how difficult the case may be, as our stock comprises everything in the line. We are now introducing many new lines of Watches, which are of new designs of Key and Pendant Winders, with some of our own improvements. We have the materials made especially for us, and and import them direct and put them up in the most approved plan, having increased our facilities more than ever. We also keep a very fine stock of American and Swiss Watches. We always have in stock Chronographs, Fly-Bucks, Split and Quarter-Second Watches, of the best makers.

We have an unequalled stock of the very finest Jewelry, which we buy for cash direct from the manufacturers east. Also, the most extensive variety of Clocks, consisting of American, German, Swiss and French manufacture, and a nice line of German Cuckoo Clocks. We have a fine stock of Diamonds and other precious stones; in fact we have a complete stock in our line of business-we would say the largest in Southern California, were it not so common for every one to say heirs is the largest stock. You can easily see by taking a look. Call on us, and if you don't see what you want, ask for it. As our store is | Primest Beef and Mutton small, we keep a fine lot of goods in the safe, which we will show with pleasure. We make specialty of Repairing of every kind, for which we are prepared in every emergency, and guarantee satisfaction. We do all kinds of Engraving on Silver Ware, Jewelry, Coffin Plates, etc., in a neat and work manlike manner. All goods sold sold by us are engraved free of charge, Come early and secure your Holiday Presents, and have them engraved, as they are going off rapidly.

We wish to tender our sincere thanks to the public of Los Angeles and Southern California for the flattering success which we have met, far beyond our most sanguine expectations; and we hope by energetic enterprise, a thorough knowledge of and close attention to our business-with a sufficient capital ready

Kelly and wife were arrested yester-day on a charge of arson. Hartlee expects to prove that they set fire to the house maliciously, and it is re-ported that saturated rags, camphine, oil etc., were found in the house near where the fire originated. The suspicion that arson was intended arises from the fact that Kelly had insured his place for \$500 in the Liverpool Lon-don and Globe, and effected a further insurance for a like sum with the State Investment, without giving notice to the first named company. Should arson be proved against either man or wife, it will probably go very hard with them.

### Our Fire Boys.

On Sunday, at half-past 2 P. M., an alarm of fire was given. The boys dragged the engine out themselves without waiting for the horses, tore down First street, and did not pull up until near the railroad crossing, when information was given that the fire was under control. Never was there such a crowd of "blowers" in this world. The up grade took it out of them, and most of our boys looked as if they ought to be walked about and rubbed down before the next heat. Although the horses came up at this investment them back juncture, the foreman sent them back, thinking the boys might as well take the engine home themselves, and finish what they had begun so well. It is very creditable to Company No. 1 that, regardless of Sunday clothes, absence of horses, etc., they hitched on and ran the machine themselves a half mile and repeat.

FOUND? BEOC It asked not much, his soul; His heart was near content Wise or unwise he bent His car to happy tales that stole The delicate, love-jealous sense, From his lax hold's deflence.

Ab, mercy 'twas!-the light,-His last upon this earth,— A sunbeam 'mid the dearth Of joy, was the delight Of, to him, loving eyes, beloved, As grown into his life and proved.

The spell is welded sure; Naught now but perfect thrust; Ne'er now may forked trust Of venomed light his soul endure; His heart is still without a wound; Now ponder well! Hath he not found?

What if in coming years, Dull days and lowering skies, Born of a slow surmise, Hed wrapt him in dry tears? No stuble are of dear accord But stony duty for her lord.

How near the roads, -- yet wide a life! How barren, leafless, gray!
How dreas the marchers stray! How long, oh Lord! gasps man, gasps wife. in no blest union, hand in hand, Can either with the other stand.

Oh! smile and smoothest word Had lacquered o'er their days.

Well ordered hearts in stays,

lie slightest joints afford

For conscience, slipshed aim, Or poor love's awkward claim.

This missed be. With the light Of love's faith in his heart He bridged death's deepest part nd even life was bright.

He passed with calm content the bound. Now ponder well! Hath he not found?

SPANISH AND FRENCH LESSONS.

INSTRUCTION IN FRENCH AND SPANISH-will be given to classes in the afternoons or evenings, by MISS JOSEPHINE LINDLEY

TERMS: 

For further particulars, inquire at the office of the Los Angeles Herald, of Lindley & Thompson, or at the Pico House. TESTIMONIALS:

Department of Languages.

Oakland, July 11, 1872.

Herewith I certify that Miss Josephine Lindley has been a student in my department of the University for five consecutive terms, viz: from September, 1870, to April 3d, 1872. During this time she studied the French, the Spanish and the German languages, obtaining always the highest marks for proficiency and attendance, her average credit mark for five terms being 97 per cent.

On entering the University, Miss Lindley possessed already such knowledge of the French and Spanish idioms as to be able to speak them with ease, fluency, correctness, and a pure pronunciation.

She may now be considered thoroughly familial with the theory and philosophy, as well as with the application of these two tongues; and she may safely be recommended as a candidate of great promise, for teaching the French and Spanish languages.

P. PIODA, Prof. Modern Languages.

UNIVERSITY OF CALIFORNIA.

Josephine Lindley has been declared by the Faculty entitled to this Certificate of Proficiency in the departments of Geology and Natural History, (Botany and Physical Geology,) Belles Lettres, (English Literature, History, Ancient and Modern,) Chemistry, Modern Languages, (French and Spanish.)

Henry Durant, President of University; E. S. Carr, Prof. Chemistry; P. Pioda, Modern Languages; Joseph Le Conte, Professor of Geology and Natural History; William Swinton, Professor of Belles Lettres; Martin Kellogg, Dean of the Faculty.
